

Bribery blights lives. Its immediate victims include firms that lose out unfairly. The wider victims are government and society, undermined by a weakened rule of law and damaged social and economic development. At stake is the principle of free and fair competition, which stands diminished by each bribe offered or accepted.

We, at Beowulf, take this Forward of the guidance to the UK 2011 Bribery Act as a core principle on how we conduct business.

As it is the right thing to do we have implemented procedures to ensure that we maintain the highest business standards in all we do.
